

# WORKING DOCUMENT: Security Updates Under Consideration

## Following the March 3, 2020 Trustees & Ad Board Meeting

At the March meeting, four trustees and board members and the pastor discussed the options. Priorities were set. Some options require a new estimate. This report will be a working document until the title at the top reads "*REVISED: Security Updates Under Consideration*". The revised options will be voted on at the May 6, 2020 meeting of the combined Trustees and Ad Board starting at 7pm. We encourage you to offer your input and questions by April 29, 2020. Estimate details are on [PennsValleyParish.info](http://PennsValleyParish.info).

*Please note that questions specific to the details about product or installation not answered in the materials available online at [pennsvalleyparish.info](http://pennsvalleyparish.info) are best directly submitted to the estimator. Their contact information is included in this document. Please share what you learn. Thank you.*

### **ESTIMATES SUMMARY – note: all prices are the grand total for the request, parts and installation**

\* Priority item

#### **DOORS Estimate from Dave Gallagher, HC HoodCo**

**Contact:** 814-424-6007 ext. 4104, Cell: 814-404-6579, Email: [dgallagher@thedorpeople.com](mailto:dgallagher@thedorpeople.com)

#### Main Street double doors:

~~Option A: "Blow proof" doors/frame that provide max protection from explosion, vehicle, etc.  
Frame and doors system (without windows) \$5,000.00 per set~~

Option B: Install narrow light kit with glass approx.. 6" wide by 32" high in the door without the panic bar/exterior doorknob. Plate installation over the face of the door to cover holes, and install one panic bar to the door with exterior knob (not the window side)

Ramp side doors: \$1469.00 | ~~Steps side doors: \$948.00~~ (Light kit and panic/push bar installation)

\* Option C: Replace the pushbutton box system on the ramp entrance with keyed lock. \$350.00 installed

#### Single Back Door to Sunday School Room/Exterior:

Option D: Panic/push bar installation \$478.00

#### Side Entrance Double Doors, Ramp Entrance:

\* Option E: Recommends an ADA compliant width entrance door, railing side of the opening, with a narrow sidelight with window (sanctuary side of the opening). Frame, door, sidelight, panic bar installed \$3,600.00

### **WINDOW PROTECTION: note: all prices are the grand total for the request, parts and installation**

3M Protective film provides tinting that makes it difficult to see into the church **during the day** (Sunday morning) but you may see out. It provides protection to the window when smashed, holding the window in place. Takes much longer to break out the window (without IPA). A video demonstration is available along with the detailed estimates on [PennsValleyParish.info](http://PennsValleyParish.info). [CONTINUED]

WINDOW TINT GOAL CLARIFICATION: Tinting does not prevent seeing into the church at night. Lighted rooms will be fully visible from the outside. The recommendation from the Sheriff for meeting rooms used at night is to use blinds that cover the windows and allow you to subtly see out while limiting completely folks from "seeing in". Anytime doors are not being monitored by someone physically watching who approaches, the door should be locked, such as after a meeting starts. Ideally, we should have a greeter at each unlocked door to monitor who is coming inside the church. Anyone who arrives late will have to knock on the door. The goal is to allow all to feel protected while they enjoy church, a meeting or a study.

There are new estimates coming and they are shown in blue.

**Estimate from Diana Traxler, PA Window Tint, Inc**

**Contact:** Cell: 814-280-5901, Office: 1-800-978-9756, Email: dtraxler@pawindowtint.com

Proposal to cover exterior door windows with basic 3M protection

~~Option F: Double Door Side Entrance – 2 panels \$264.00~~

~~Option G: Main Street Entrance Doors, Ramp and Steps, (using basic window size as they do not have windows at this time – based on windows in all four doors) \$528.00~~

~~Option H: Single Back Door to Sunday School Room/Exterior – 1 panel \$114.00~~

Proposal with IPA beaded protection to prevent removal of the window from the door frame

Option I: Double Door Side Entrance – NEW ESTIMATE COMING for sidelight of new door frame

Option J: Main Street Entrance Doors, Ramp and Steps, (using basic window size as they do not have windows at this time – based on windows in all four doors) ~~\$816.00~~ NEW ESTIMATE for the 6" x 32" window insert on the ramp side door only - \$74.00 installed

\* Option K: Single Back Door to Sunday School Room/Exterior – 1 panel \$176.00

**Additional Discussion Items at the March 3, 2020 Meeting:**

Basement Landing Door with Windows: Do we want to get the 3M covering on the existing door? If so, we can get an estimate for this as well.

Windows in the Sunday School Room and Nursery Room: Do we want to get 3M tint covering on the lower windows only? If so, we can get an estimate for this as well. Keep in mind, this is for daytime obscurity only. Lighted rooms at night will be fully viewable from the outside unless there is another means of covering them such as blinds.

We need to place signage at the locked door on Main Street (steps side) so guests may know to use the other door.

How does the locking mechanism work for the street side panic bar with vertical rod? Detailed answer forthcoming.

With hands to the plow,

*Pastor Theresa M. Heiser*
